

is now held under heavy bail for his appearance for trial. Proceedings under section 1014 of the revised statutes were at once instituted in the states of California and New York to secure the removal of the defendants arrested in those states to the District of Columbia for trial. These proceedings have been diligently prosecuted and in California have resulted in decisions by both the United States district and circuit courts of the northern districts of California, sustaining the conspiracy indictment and ordering the defendants Hyde and Dimond removed to the District of Columbia for trial. They have appealed to the supreme court of the United States and it is the purpose of the government to secure in that court an advancement of the cases on the docket, and a hearing of the appeals at the earliest possible date. The defendants are under heavy bail to answer the decision of the supreme court when finally rendered. Upon the indictment for conspiracy, still pending against said Benson in New York, and the expectation that they will be concluded at an early date with like favorable results. The action of the secretary of the interior in suspending the selections and entries of the public lands involved in the conspiracy, and in refusing to issue further patents upon such selections and entries, is fully sustained by the decisions of both the district and circuit courts of the United States for the northern district of California above referred to.

Gang Broken Up.
"As an immediate and very important result of the investigation, this gang has been broken up and its power for evil doing in the future utterly destroyed. As further and ultimate results the fraudulent selections will all be canceled and the lands covered thereby restored to the public domain, and it is the confident belief of the secretary of the interior and of the officials having charge of the prosecution growing out of the investigation that the guilty parties will be convicted and such punishment meted out to them as will not only be commensurate to the magnitude of their crimes, but will serve as a warning to evildoers in the future."

Oregon Conspirators.
The statement then refers to indictments found in the state of Oregon against Horace G. McKinley, Stephen A. D. Pater, Maudie L. Ware, Emma L. Watson, Guy Huff, Maudie Witt, H. Wakamot, Harry C. Barr, Dan W. Tarpel, Charles Cunningham, A. A. Tarpel, Dallas O'Hara, Glen H. Saling, Shelley Jones, Mark Shallet, Kate James and Henry Meldrum.

Continuing, the statement says: "In these prosecutions Charles Cunningham, Asa Tarpel, Dallas O'Hara, Glen H. Saling and Shelley Jones have pleaded guilty, and sentence has been imposed upon all except O'Hara and Jones. The other cases were set for trial at the May term, 1904, of the federal court at Portland, Ore., but owing to the fact that one of the principal witnesses for the government had absconded, the cases had to be continued and are now set for trial at the November term, 1904, of the court. The absconding witness has been arrested and is now under bail for his appearance at the November term. An able attorney, skilled in the conduct of criminal prosecutions, has been appointed by the government to assist the United States attorney in the trial of these cases, and convictions in all of them are confidently expected."

Investigation Going On.
"The investigation is still being carried on and further indictments are expected as soon as the cases can be prepared for proper presentation in grand jury. In so far as indictments have not yet been found, it should be apparent to everyone that secrecy must be maintained, otherwise all efforts to detect the frauds would be null and void. There is not now and never has been any desire or effort on the part of the secretary of the interior or those engaged under his direction to keep from the public the results of the investigation except in so far as absolutely necessary to prevent a failure in the endeavor to accomplish the desired end, to wit, the conviction and punishment of guilty parties."
"That the charges referred to are in every respect correct and that the facts or reason can easily be ascertained by anyone who cares to check the truth. The results accomplished are largely shown by the public records of the courts and of the land department, and in so far as the destruction of the Hyde-Benson combination and the general breaking up of the fraudulent practices in other sections as herein indicated, the honest seeker for information can have no difficulty in obtaining it by simple inquiry of the officials of the land department or of the indicted parties themselves."

MILLIONS OF VISITORS

Record of Attendance at the World's Fair.

St. Louis, Oct. 2.—During the 134 days that the world's fair has been open, up to the closing of the gates last night, 12,515,511 admissions have been recorded. The fair officials anticipate that the attendance during the last two months will be unprecedentedly large. The record for the past week was 225,563, divided as follows:
Monday, Sept. 25, 111,267; Tuesday, 116,841; Wednesday, 128,457; Thursday, 127,028; Friday, 121,690; Saturday, 117,238. Total, 728,565.

BACK FROM EUROPE.

Washington, Oct. 2.—First Assistant Postmaster General Wynne returned here today after a vacation in Europe of some weeks.

WE NEVER MISSTATE FACTS OR MISREPRESENT OUR COMPETITORS.

BY ARRIVING AT ST. LOUIS IN THE MORNING YOU GAIN ONE FULL DAY AT THE WORLD'S FAIR.

Leave Salt Lake at 7 a. m. via the O. S. L. T. P. and Wabash, arrive at St. Louis 7:15 a. m. the second morning; 47 hours and 15 minutes actual running time.
Our competitors leaving here the same morning, arrive at St. Louis in the evening; ten hours and 46 minutes longer on the road.
Returning, the Wabash leaves St. Louis 7:30 p. m. (permitting all day at the fair), reaches Omaha the next morning, connecting with the Union Pacific "Overland Limited," arriving at Salt Lake next afternoon at 4:20 p. m. 45 hours and 50 minutes actual running time, with a through sleeper in both directions, without change between Salt Lake and the world's fair grounds or union depot, St. Louis.
Our competitors, leaving St. Louis same evening, arrive here in the morning; 15 hours and 40 minutes longer on the road.
Examine the official guide and verify our figures.
For rates and sleeping car reservations call at 201 Main street, Salt Lake City.

BALTIC FLEET GOING AT LAST

(Continued from Page 1.)

brought by Japanese who left Port Arthur Sept. 29. The Russians were apparently attempting to capture the heavy guns which the Japanese have mounted in that vicinity. The Russians were in considerable haste and they made several sorties, dragging field artillery with them. They were unsuccessful, however.

Three junks with coolies arrived here today. They left Port Arthur because they were to carry the wounded and bury the dead. They were also afraid that eventually they would have no food, although rice is plentiful now, according to their story. They further say that the Russians lost heavily during the attack of Sept. 19 and Sept. 23, but the Japanese loss was much heavier.

One of the coolies who had been a water carrier showed a wounded man who he received Sept. 22. He and four companions went to the well in the center of the town. A shell burst and killed several of the coolies and wounded the fourth. The Russians were silent during the battle and the hitherto unmerciful shots were, as a result of the fight, turned into hospitals. Several of the coolies were employed in carrying dead say they were unable to form anything like an estimate of the number who fell in attacking and defending the supply mounds near Mt. Mian. Since the battle both sides continue to shell the Japanese. The Russians make many small sorties against the Japanese trenches. Small positions frequently change hands. The Chinese say they are compelled to bury the dead by stealth at night for the reason that the Japanese would fire on them.

TOKIO ADVICES.

Aggressive General Action Expected Soon.
Tokio, Oct. 2, 6 p. m.—The Russians are reported to be desperately endeavoring to save their lost positions, including Port Kuroptkin, in the hope of restoring the water supply of Port Arthur. They are said to have repeatedly attacked the Japanese from the shore by neighboring forts and batteries. The Japanese continue to hold the positions. Both sides are said to have suffered severely. The newly mounted heavy Japanese guns are said to command the entire harbor. The position of the remainder of the Russian Port Arthur fleet is said to be precarious and it is believed that the vessels must soon emerge or be destroyed.

Advices from Manchuria are to the effect that the Japanese and Russian outposts and scouts continue in close contact, southeast and east of Mukden. Skirmishes are occurring daily and an aggressive general action is expected soon.
It is believed that the general engagement will take place near Tie-piao and that General Kuropatkin is leading Mukden and positions along the Hun river merely to temporarily check the Japanese advance. Snow has fallen in the mountains east of Mukden and there has been frost in the valleys.

SITUATION DESPERATE.
Port Arthur Fleet Expected to Sally Out Soon.
London, Oct. 3.—In connection with rumors of another projected sortie of the Port Arthur squadron, a Shanghai dispatch reports that a Russian warship was expected to sally out Sunday night. Russians there having chartered a tender to meet her.

According to a Japanese correspondent in the Morning Herald, the sally would only be a last extremity and when the surrender of the garrison could no longer be postponed.
Because the waterworks and the shore water condensing apparatus had been ruined by the Japanese shell fire, the correspondent adds, the garrison is dependent now upon the condensers of the fleet for fresh water.

Shanghai dispatches to the Standard and the Daily Telegraph are to the effect that a naval battle has been fought off Port Arthur. Neither of these reports has been confirmed, the correspondent says, and they probably are only surmises.
The Chronicle's Shanghai correspondent says there was a true sally Sunday at Port Arthur to bury the dead. Russian and Japanese officers, he says, exchanged greetings, after which the bombardment was commenced with its old vigor. There is little change in the relative positions of the opposing forces.

The Standard's correspondent with the Japanese army says the progress is making with the field railway from Antung, which will eventually join the line at Liao Yang. Its completion, he says, will double the Japanese lines of communication. The Daily Telegraph's Simnitin correspondent, telegraphing Oct. 2, comments on the hideous display in the Japanese plans. He says their scheme around Mukden has been abandoned and that they are awaiting reinforcements from Port Arthur. There are signs of weakness, the Japanese, the correspondent adds, are pressing for the expulsion of all British and other correspondents from Yankov, if they should visit that portion.

First Japanese Train.
General Oku's Headquarters in the Field, Oct. 1, 4 p. m. (via Fusan, Oct. 2).—The first Japanese train arrived at Liao Yang this afternoon. The gauge of the railway has been changed from Dalny to New China. A regular schedule of trains will be established in a few days.
Engines and cars have been brought from Japan. The completion of the railway removes entirely the problem of the transportation of supplies and ammunition to the Japanese forces in the field.

Japanese Gunboat Sunk.
Tokio, Oct. 2, 8 p. m.—It is rumored that a Japanese gunboat struck a mine and sunk south of the Liao Yang peninsula. A portion of the crew rescued and island and were rescued. The name of the gunboat is unknown. The navy department does not deny the report but says that the department lacks confirmatory information.

Junk Struck a Mine.
Chefoo, Oct. 2, 7 p. m.—A ninety-ton junk from New Chung to Shanghai ran on a mine twenty-five miles north of here last night. No one was injured. The junk was kept afloat by her watertight compartments. She reached here with all available hands working the pumps.

The Opposing Forces.
London, Oct. 3.—The correspondent of the Times, who has just returned from the front, telegraphing from Tokio, says the Russians have two divisions on the Hun river, four divisions at Mukden and that the main body of the army is concentrated at Tie-piao, which they are fortifying. The three Japanese armies, the correspondent adds, occupy front extensions for twenty miles north of Liao Yang in their original order.

UNCLE SAM PAYS FREIGHT FOR SPRY

Republican Campaign Literature Goes Out "Franked."

GREAT BURDEN IMPOSED

PRINTING AND POSTAGE COST LARGE AMOUNT.

That provision of the postal laws which authorizes sending through the mails under the "frank" of a senator or member of congress any public document is being utilized to the utmost by the Republican state committee. Hundreds of pounds of stuff is being mailed daily by the clerks employed at the headquarters. Republican campaign material is thus being carried and distributed, free of charge, by the postoffice department. The clerks have been provided with copies of the city directory and present indications are that every man whose name appears in that useful volume will receive a bundle of Republican literature before the campaign ends.

For the purpose of throwing the cost of this distribution on the government, the Republican congressmen avail themselves of the "leave to print" privilege to cause the incorporation in the Congressional Record of newspaper interviews, reports of speeches delivered thousands of miles from Washington and much other stuff, not in any sense of the nature of public business. On some of the matter sent out appear citations indicating where the original may be found in the Congressional Record, but on much of the stuff there is nothing to show that it ever appeared in the Congressional Record. One cannot but wonder how quotations from Mr. Bryan's Commission of July 13, extracts from Roosevelt's speech of acceptance, July 27, got into the Congressional Record when congress adjourned in June. "A Timely Word to Women," by Mrs. J. Ellen Foster is another soul-stirring tract that is going out under the "frank." Extracts from President Roosevelt's books have been inserted in the Record for the purpose of making their distribution at public expense possible.

In the light of recent developments it is not strange that there should be a great deal of postoffice department occasionally.

SPRY WAS PLEASED.

One Paper, He Says, Worth What It Cost.

A copy of the Millard Times which was picked up in Republican state headquarters the other day furnished much merriment. The Republican state ticket, the Republican county ticket and the list of home missionaries appeared in the above order at the head of the editorial page.
"I believe this is one of your papers, Mr. Spry," remarked a wag who was present.
"What paper?" inquired Mr. Spry, absently, without looking up from his desk.
"The Millard Times."
"Yes, I believe it is. What of it?"
"What of it? Well, take a look at it and see. Look at it and then attempt to deny that you are using such a paper," said the wag.

Mr. Spry was interested immediately. He took the paper, glanced at the editorial page and joined in the laughter. "I am flattered," he said, "to see why we should complain. It is some satisfaction to put a man like that on the payroll. You get a return for your money."

SAFE, HE THINKS.

Livingston Denies Story Current in Sanpete.

Monti, Oct. 2.—Alleged statements by W. D. Livingston to the effect that he did not care much whether he was elected to the district bench, because if the present state organization is successful and Smoot keeps his seat, Livingston could get the appointment of United States district attorney if he wanted it, is vigorously denied in the local Republican organ this week. Evidently the fact that this story has been in general circulation here has reached the ears of Mr. Livingston and he is either sorry he said it or sorry it is said he said it.

DEMOCRATIC CONVENTIONS.

Senator, Judicial Nominees and County Ticket Selected.

(Special to The Herald.)
Marysville, Oct. 1.—The Democratic convention of the Sixth judicial district was held today at this place. A full attendance was present and harmony ruled throughout the deliberations of the delegates. Henry N. Hayes of Sevier county was nominated for district judge, and Samuel L. Page of Pitkin county was nominated for district attorney.

The Democratic senatorial convention of the Tenth district was also held in Marysville today. James Veater of Garfield county was nominated for senator on the second ballot by a vote of thirteen to seven. Victor C. Moser of Wayne county was the only candidate besides Mr. Veater.

A Democratic rally was held here tonight. Messrs. Robert W. Sloan and George L. Blair of Salt Lake City were the principal speakers.

Plute Specialists.
(Special to The Herald.)
Marysville, Oct. 1.—The Socialist county convention was held in this city today. Following is the ticket nominated: County commissioner, long term, Howard Brindley of Kingston; county commissioner, short term, A. Gay of Kimberley; county clerk, Miss C. Durkee of Marysville; county recorder, Mrs. Annie Young of Kingston; treasurer, Dan Sandberg of Kimberley; assessor, C. W. Cropper of Marysville; county attorney, J. Dennis of Marysville; sheriff, S. Black of Marysville; superintendent of schools, E. E. Winder of Circleville. No nomination was made for county surveyor.

PEACE CONGRESS.
Religious Mass Meetings Precede the Opening.

Boston, Oct. 2.—Twenty-seventy in Tremont temple was occupied this afternoon at the first of the religious mass meetings which precede the opening of the International Peace Congress tomorrow.

The speakers included Rev. Walter Walsh, D.D., of Dundee, Scotland, and Rabbi Burkhardt of Philadelphia. Walsh's address was an impassioned appeal to remove the peace movement from the hands of politicians and place it in the hands of the churches. He declared that although war was bad, the war spirit was infinitely worse, and said it was the duty of the churches to kill the war spirit.

ROOSEVELT AT CHURCH.
Washington, Oct. 2.—President Roosevelt today attended the dedication of the new church edifice at the Mount Pleasant Congregational church. He was accompanied by District Commissioner Henry L. West, who is a member of the church.

WRES CONNECT PRISON GUARDS

Telephone System Installed in the Penitentiary.

PRECAUTION AGAINST BREAKS

INGENIOUS SCHEME FOR HOLDING CONVICTS IN CHECK.

A complete telephone system connecting every department of the penitentiary with every other department, and putting every guard in the institution within instant communication with the office of the warden and with every other guard on duty, is an innovation in the penitentiary under the administration of Warden Arthur Pratt. This new means of communication is established in the prison as an additional precaution against outbreaks such as occurred a year ago. At that time the only means of giving a general alarm was by ringing the great bell in the main building of the penitentiary. It is but the work of a moment for the guard to communicate directly with the main office, or call for help from any other department of the prison, and all this can be done quietly without turning in a general alarm.

Officers at the penitentiary realize that another riot is being planned in the walls of the institution are some of the most desperate characters in the United States if not in the world. Realizing that the rioting is being planned and are installing the best appliances known for the care of criminals. Visitors from other institutions and men who are well informed in matters of this kind are profuse in their praise of the discipline enforced in the Utah penitentiary and the splendid system that has been built up for the care of the unfortunate and the protection of society.

Call Box in Every Tower.
The telephone system is simple. There is a call box in every ward and in every watch tower, so that in case anything goes wrong in any department of the prison at any time, day or night, it is but the work of a moment for the guard to communicate directly with the main office, or call for help from any other department of the prison, and all this can be done quietly without turning in a general alarm.

MYSTERIOUS MURDER CASE AT PITTSBURG
Pittsburg, Oct. 2.—The local police are wrestling with what appears to be a mysterious murder case. The body of a young woman, dressed richly, was found in the Allegheny river today a short distance below Union bridge. The body, which had evidently been in the water but a few hours, bore wounds on the forehead and several small cuts. The dead body was apparently about 25 years of age.

EARTHQUAKE SHOCK, FLOODS AND RAIN
Rome, Oct. 2.—A strong shock of earthquake was experienced today in the south of Italy, accompanied by floods and rain. The greatest force of the earthquake was felt in Calabria. Three houses fell, and Soyala and many others were rendered unsafe. Fortunately no one was hurt.

THREE STOCKMEN KILLED.
Bismarck, N. D., Oct. 2.—Three men were killed and a number injured in the wreck of a stock train near here today. The dead:
Smythe Dobson of Dickinson.
George Davis, Saginaw, Mich.
Fred Vesper of Montana, Ey.
Among the injured were G. R. Wannemacher, Dickinson; L. A. Watkins, Dickinson.

LETTER OF ACCEPTANCE OF EX-SENATOR DAVIS
(Continued from Page 1.)
and not to further party ambitions and the self-purpose of any citizen. Many of the injured thousand federal office-holders, servants of all the people were under salary, are now vigorously, some covertly and some openly, working and contributing in the present campaign to secure the success of the Republican party in defiance of the democratic constitution and its regulations. Several members of the cabinet and other officials of the government forsaking their duties and the departments at Washington are spending all the time making speeches and using all the influence and power of their official positions to elect their chief.

The late John W. Mackay was the founder of the system, and to him and his son, Clarence H. Mackay, belongs the credit of having created the most extensive combined ocean and land line telegraph system in the world.

HERALD GETS FIRST MESSAGE

Receives Initial Press Dispatch Over Postal Lines.

REGULAR OPENING LATER

INTENTION IS TO ACCEPT BUSINESS NEXT MONDAY.

On The Herald was conferred the honor of receiving the first press dispatch to enter Salt Lake over the Postal Telegraph-Cable lines. This came from New York by way of Chicago yesterday, and was a query from the regular Herald correspondent in New York. Engineer Carroll, who is still in charge of the office at this end of the line, promptly delivered the message to The Herald accompanied by the following note:

"We are not open for business yet, but Chicago had accepted this query and I took it to go there would be no delay."

With wires strung between Salt Lake and the east, and the promise that today will see these connecting Pacific coast and Utah completed, the officials of the Postal Telegraph Cable company are expecting to open local headquarters for business within a few days. Had there not been delay in receiving dynamo plant and machinery and other telegraph apparatus, "opening day" would have been tomorrow.

Vice President Makes Announcement.
Speaking of the prospects of the company had of being in operation in Salt Lake within a week, Vice President W. H. Baker said yesterday:
"The necessary supplies, instruments and machinery were shipped some time ago and should have reached Salt Lake long before this. It was expected that the work of installing the equipment would be completed and the office in readiness to handle business by Monday. It is now the hope of the officials of the company that everything will be completed and in operation Monday week."

With wires to the Atlantic and Pacific coasts coming into Salt Lake, the Postal will have lines and offices in every state and territory in the Union with the exception of Nevada. The Postal company was founded about eighteen years ago. Its growth since that time has been rapid and substantial. The Postal's system comprised at the beginning of this year 49,012 miles of poles, 251,711 miles of wires, 28,314 offices. A number of offices have been added and hundreds of miles of wire strung during 1904.

"The late John W. Mackay was the founder of the system, and to him and his son, Clarence H. Mackay, belongs the credit of having created the most extensive combined ocean and land line telegraph system in the world."
